professional dining
environments nationwide.

*Pure Hospitality
Range for the
CONNOISSEUR...*

BRONZE | BRASS | COPPER | STAINLESS STEEL

Copper's therapeutic value and appeal are timeless. Water stored in copperware, known since Vedic times, helps regulate digestion and heart health and inhibits bacteria, viruses and fungi. Scriptures recommend drinking 4 glasses of copper-stored water every morning for its health benefits.

"The disease-causing bacteria cannot survive for more than a few hour on copper surfaces."

-Institute of Micro Biology & Research U. K.

Ramsons Industries, the pioneer of copperware in India endeavour to bring the eternal tradition of copper in life through La Coppera - a brand, perfectly crafted to endure the customary heritage in the contemporary livelihood. The earnest moves of the company in enriching this sacred tradition, has earned the award of excellence **"The Udyog Rattan Award"**. The Company has also been awarded **"The Laghu Udyog Award"** by the Industries Department, Government of Uttar Pradesh for excellent enterprise, product range and accomplishments.

Today, La Coppera is the most reliable & preferred name in the copperware industry.

CRAFTING THE FINEST & THE PUREST

Ramsons Industries has adopted cutting - edge technological developments to ensure a tested and certified quality in its entire products range and thus offers the finest and purest copperware to the customers. The company is committed to deliver an international grade to ensure highest customer satisfaction.

THE VISION

While focusing to establish a name in the copperware fraternity that identifies with the originality and the purity of copper, **Ramsons Industries** is committed to deliver the ageless use of copper with its true therapeutic values in accurate designs and shapes of utility.

KNOW YOUR METAL

WHAT IS KANSA/BRONZE?

Kansa, the Indian name for bell metal, is a hard bronze alloy made with roughly 4:1 copper to tin. Mentioned in the Vedas as Shuddh Dhatu, it is widely used in worship. After gold and silver, Kansa is among the most valued metals for crafting utensils.

BENEFITS OF KANSA/BRONZE?

In Ayurveda, Kansa is valued for balancing vata and pitta while supporting skin health, eyesight, and overall wellness.

BRONZE

WHAT IS PITAL/BRASS?

Pital, or brass, is an alloy of copper and zinc known for its golden shine. Traditionally used for cookware, brass is valued for enhancing flavour while adding nutritional benefits to food.

BENEFITS PITAL/BRASS?

According to Ayurveda, brass may help improve skin health, support melanin production, balance pitta, and increase haemoglobin levels, contributing to overall wellness.

BRASS

WHAT IS TAMBA/COPPER?

Tamba (Copper) is one of the oldest metals used by mankind. A naturally occurring element found in minerals, copper has been valued in traditional practices for its health-supporting properties for centuries.

BENEFITS OF TAMBA/COPPER?

Serving food and storing water in copper vessels brings traditional wellness into everyday living. Copper is valued for its natural antibacterial properties and its role in supporting overall health and balance.

COPPER

Over time, these metals naturally change color due to oxidation. Exposure to air and moisture forms a protective patina that preserves the metal. If desired, this patina can be removed by following the care instructions below.

WHAT WILL YOU NEED?

- Water
- Clean towel
- Soft cotton polishing cloths
- Lemon juice
- Baking soda

CARE & USE

CLEANING YOUR METALWARE:

1. Rinse the item with water and dry it thoroughly.
2. Place about **2 tablespoons of baking soda** in a small dish and drizzle a small amount of **lemon juice** over it. Mix until a **soft paste** forms.
3. Apply the paste to the item using your hands or a **soft polishing cloth**.
4. Using the polishing cloth, gently rub the paste onto the surface in **small circular motion**.
5. Allow the paste to remain on the item for **20-30 minutes**.
6. Rinse the item thoroughly with **warm water** to remove the paste, then **buff dry with a clean towel**.

Ancient traditions have long valued these metals for supporting a balanced and healthy lifestyle. It is time to bring this timeless practice back into trend.

KANSA BRONZE

Finish Available: Matt / Polish

Kansa in the healthiest metal to eat in!

Pure Kansa is an Indian name for bell metal or bronze. An ultra-superior metal, Kansa is an alloy of Copper and Tin both heated together up to 700 centigrade to form pure bronze. A malleable metal in itself, the prepared alloy is further moulded into handcrafted products and can acquire different kinds of finishes.

It is considered good to have food in Bronze utensils. The metal has been tested in laboratories all over the world for its self- cleansing properties. As compared to glass or plastic utensils, Bronze shows nil microbial presence under microscope one hour after they were washed in warm water.

कांस्यम् बुद्धिविर्धकम् "meaning- eating in Bronze utensils enhances Intellect. Popularly known as 'Kaansa' in India, one can see many mentions of the metal in Ayurveda, Rajtarangini and Bhavprakasha are two such Granthas. And our deeply rooted societies took up these learnings and implemented them in their living.

Infuse your life
 with
 richness of tradition.

La Copperra, where
 every sip tells a story.
