Experience **#Worry-free cooking!**

The company

From the south of Brazil to the wide world.

Our story begins in 1911, when Valentin Tramontina, the son of Italian immigrants, founded a small blacksmith's workshop with his wife in the small town of Carlos Barbosa in the southernmost Brazilian state of RioGrande do Sul.

He soon made a name for himself for high-quality and durable knives.

The small family business flourished and, over the course of a good century, developed into an internationally active group of companies with a total of 8 factories throughout Brazil, its own stores, distribution and subsidiary companies around the globe and well over 10,000 employees.

And to this day, our history is in family hands – now in its third generation. Today, Tramontina exports to over 120 countries and uses state-of-the-art manufacturing technologies to produce a wide range of over 22000 products – including household appliances, kitchen utensils, tableware, furniture and tools.

GENERAL INFORMATION

Product Image

Some images presented in this catalog are merely illustrative.

Product modifications

Tramontina reserves the right to modify any product present in this catalog, with the aim of improving it whenever there are technical or commercial reasons for doing so. Any changes that are carried out are exempt from prior notices and do not require the replacement of products already sold.

Items canceled or discontinued

Tramontina reserves the right to withdraw from production or cancel the sale of any product in this file.

Measurements and weights

The values relating to weights and measurements contained in this file are subject to change.

Certificate of origin

Some products are outsourced through production agreements that follow strict quality standards, controls, specifications with Tramontina warranty. These products are marked in reference with an * (Certificate of Origin not available) in this file. In this way, seeking permanent renewal, the company offers a guarantee of credibility in national and international markets.
